

January 10, 1986

Association of Omaha and I also had an obligation to be down here. I guess I'm saying even though I was in that situation, I think there are those occasions when the body should be able to compel my membership, my attendance here, if I'm going to stay. A couple of other things he did say about a majority of those voting can put us under call. That is not what the proposal says. It is a majority of those present. That is a distinction. The majority of those voting can be a 6-2 vote. A majority of those present is the same sort of vote that we have to overrule the Chair which means we may have a...if we have 45 members present, it will take 23 votes to summon the body in this way. Again, as I started to say when I thought I was closing before, the question of frivolous use of this rule, I think the debate we're going through right now shows that we're not about to use this frivolously. If anybody wanted to use it frivolously, it's on our mind now, any of these votes we've had, we may have tried to put this into effect just to see how it would work. Nobody has chosen to do that. This is not something we are going to use as responsible citizens, as responsible people that want to maintain the close working relationship of our colleagues. We're not going to at a whim have them called back in from Chadron, from Omaha, from other places. This is a tool that I would like to see maintained in the rules so that on those extraordinary circumstances we can use it. With that, I would appreciate your support.

PRESIDENT: Senators Withem and Morehead, it isn't fair for the Chair to make comment on the substance of the proposal, but I just want to make it clear that actually aren't we choosing between Senator Withem's proposal which is before us now and the following amendment which is also printed in the Journal? Senator Withem.

SENATOR WITHEM: Yes, I think to clarify that, the proposal before you is to vote for my suggested change. If that...well, that is the proposal before you. A yes vote will support my position. A no vote will support Senator Morehead's. At that point then, according to our rules, we'll go on and debate hers...

PRESIDENT: Senator Morehead, what is your position, if Senator Withem's proposal passes?

SENATOR MOREHEAD: If Senator Withem's proposal passes, I
